The Valley River Lumber and Boom Company.

The Valley River Lumber and Boom Company's boom at Grafton, is said to be one of the strongest booms in the country, and has proven itself to be of almost incredible strength. There are two abutents, one at each bank) and eight piers these plars are constructed of heavy log gribs 35 feet square at the bottom and 20 feet high filled with stone; each crib or pier contains about 300 perch of stone. The piers are one hundred feet apart. The boom sincks are chained to these piers, and so constructed that a stick can be removed at any point for the purpose of allowing logs or rafts to pass through. The cond of the boom and removing obstructions from the river above the town is between \$39,000 and \$40,000. Quite a number of large stones have been removed from the channel for several miles up the river. Where there were large stones and other obstacles in the way to obstruct the passage of logs, sheer booms' have been put in to keep the logs in the channel. Most of the logs received during the last freshet were from Barbour county, some from Randolph, and a few from Upshur. The sunces of the enterprise having been once stablished, logs will be run in large established, logs will be run in large established, logs will be run in large. OUR STEURENVILLE LETTER

STEUBENVILLE, August 14.

The demonstration made to-day by the Republican party of this city was well calculated to frighten their Democratic opponents. It was a grand success in every sense of the world—in numbers, in enthusiasm, and in such a spirit of earnestness as told in language not to be misunderstood of a decisive victory in October. The meeting held some time ago in the interest of Samuel F. Cary and the Democratic party was nothing in comparison with the one held this afternoon. This was the first grand ontburst of enthusiasm in the present campaign, and taking into ounty nominations made by the Re-can party, and will give such an account of themselves in October next as will make the Democratic party quake, It will do very well for the Democracy to complacently assert that the people view with indifference the work of the Hepub-ican State Convention, and that the people

son will do her whole duty this fall. We make this prediction from the enthusiasm mailested by the people to-day.

Through the kindness of R. K. Hill, Esq., Auditor of Jefferson county, we learn that for the year 1875 the total rate of tax levied for all purposes by State, and that the supplies are almost inexhaustible. Five large saw mills are now engaged in sawing these logs, and no doubt a number of other saw mills will be erected very soon, as enough logs can be furnished to supply a score of mills.

The Boom Company was first organized by some speculators, and was incorporated by some speculators, and was incorporated by some of the Legislature, passed February 28th, 1870. Col Ben, Wilson was one of the first movers in the enterprise, Hon, H. G. Davis was also a charter member. The present company is composed of men of considerable means and enterprise who will soon have the river in such a condition that logs can be floated without danger, for one hundred miles. From the above showing the assets are considerable more than the liabilities, and should they pan out as they should the creditors will undoubtedly realize more on their claims in a court of bankruptcy than to have them subjected to unnecessary litigation before Justices of the Peace and the Courts of Ohio, West

Editors of the Intelligencer.

Last evening, after I closed my report, and at the close of Bro. Ball's exhortaand at the close of Bro. Ball's exhortation, a number presented themselves at
the altar as seekers, and two professed,
conversion. One or two professed the
blessing of sanctification. It had the oldtime ring last night, and is to be hoped
that the meeting will be run on that line
hereafter, and that hundreds of sinners
will be converted.

The morning meetings are so early that
it is impossible for me to be present to
give a report of them, but I understand
that they are very interesting and profits

The 9 o'clock meeting was led by Rev.

their experience. I was particularly and
forcibly struck with the experience of a

IT WAS A VERY BRUHT

One, and it was good for all to hear it.

Dr. Wood, of Baltimore, preached at 104 o'clock, and the interest manifested was good. At the 7:39 o'clock services Rev.

Lithian holiness. The sermon was a very clear exhibit of his views of the subject, and some of the points made were as follows: Christian holiness is heart purity. No man can have a pure heart as long as there are roots of bitterness apringing up therein. To love the continue of the points made were as follows: Christian holiness is heart purity. No man can have a pure heart as long as there are roots of bitterness apringing up therein. To love the continue of the power to become the sons of God. One win extused the soglet with all the heart is different from foring Him supremely. We can love Him above all things else and still have sin, but to love Him with all the heart easts out every unholy desire. We must have this desire to be holy, and God will always answer it.

this desire to be holy, and God will always answer it.

THIS HOLINESS IS NOT NECESSARILY MATTORITY.

It must not be confounded with justification. Justification is sanctification begun and the greater part of the work is done in justification, but God does not fully sanctify them. The elements of the new nature are planted in a regenerated heart, but they are among the remains of sin, They can't grow as well as they can and will after we have a pure heart given us. Still the lowest state of grace does not admit of ain. The justified man can not sin and retain his religion. The legitimate language of the regenerate heart, is to ward holiness. Holiness is not in itself a high state of grace. It only prepairs us to grow into a high state. We must go down belarcews are lifted into the higher than the service of contract of the contract of the most of the world. Various illustrations were given to enforce the points made. After dinner the people were summoned by the band to the place selected for the meeting in Market Square. At 2 o'clock an organization was effected by calling

Dr. Reiley preached from the text,
"What shall it profit a man if he gain the
whole world and lose his own soul?"
The subject was handled in the masterly
manner for which he is famous. It was
a powerful and urgent appeal to sinners,
and at its close several presented themselves at the altar.

Why not first preach to sinners and
then to the righteous, if they need more
preaching? If we build our house a perfect house, do we not begin at the foundation and build up? Wisdom teaches us
that much. Christ said, "I came not to
call the righteous, but sinners, to repentance."

Many others followed, and many were made happy as they told of Jesus and His love.

love. Rev. Dr. Taylor preached at 10½ o'clock from the text, "Therefore we conclude

that MAN IS JUSTIFIED BY PAITH MAN IS JUSTIFIED BY PAITH, without the deeds of the law." First he defined justification. It is a law term. It stands in opposition to condemnation. It means acquittal in the sight of God. He then showed that it was impossible to be justified by the law. Man would be saved life lived without sin, but it is impossible for man in his natural state to live without sin. He reviewed the Ten Commandments, and in a very forcible manner showed the impossibility of keeping them all in every sense. And if we offend in one we are guilty of the whole. We are justified by faith, and that through the death of our Savior. We can do nothing until we are justified. This prepares us for all things else.

Rev. Updegraff, of Obio, preached from these words: "How shall we escape if we neglect so great salvation?" This from these words: "How shall we escape it we neglect so great salvation?" This is a question you all should sek. Multitudes are neglecting it. You are all interested in the question. You are neglecting your souls' salvation, and you know it. There is a desire in the minds of all to escape hell. You all believe there is a place of final punishment. You have no affinity for Christ in your present state. You have not a new heart—a heart that realizes the presence of God all the time.

mome think there is safety in iono-bance.

This is the door to infidelity—the gateway to universalism. The heathen even are responsible as far as the light they have. Others seek to find safety in trying to be good. They think they will be led to do what is right; some spiritual power within will bring all right in the end. Another class disbelieve, and still another seek safety in pretending that they have not the ability to believe. But we have that ability, and we have the express declaration that "be that believeth not shall be damned."

FLOOD OF ANORY WATERS.

NEW YORK, August 14.—Although this city escaped yesterday the daily storm to which it has been accustomed during the week, the surrounding territory was not so fortunate. At Hackensack, before 2 o'clock, the rain came down in torrents; shower succeeded shower, each accompanied by vivid lightning, and the water seemed to be one continuous stream. As the ground was already thoroughly seemed to be one continuous stream. As the ground was already thoroughly soaked, the flood accumulated rapidly, and all the low grounds soon wore the ap-pearance of a lake. The houses on the meadows below the town were soon in the condition of islands, and this morning the inhabitants were improvising bridges through the door-yards, while the chick-ens were perched on barrels and boats. All the gardens and fields in the low places were under water and will be more

made.

During the storm an empty freight train of the Pennsylvania Railroad, standing on the track at Holmesburg Junction, was run into by a freight train going west. Seven cars and cabooses were entirely demolished, the engine was broken and disabled, and both tracks blocked.

THE INSANE DEAD.

St. Louis, August 15.—The deaths at the County Insane Asylum last night has been the subject of much comment to-day, and many strictures have been passed upon Dr. Howard, the resident physician. The sedative administered was composed of fluid extract of conium, 16 ounces authphate morphia, 24 grains atropia, belladonna i of a grain, bromide posassium 4 ounces, berling water 4 ounces. This was given in teaspoonful doses to the patients when noisy or very resiless and repeated in one or two hours, when the first dose did not produce quietude or sleep. This was given to eleven patients between 10 th. M. and 2 A. M., with apparently no bad results to any of them, excepting those mentioned in the previous dispatch. It appears, howevers, that the conium used in this mixture was a new article, much stronger than that used on previous occasions and was not tried before administration. For this reason and for placing so powerful asedative in the hands of nurses to be given with more or less discretion of their own, is for their immediate wants, and ordered THE INSANE DEAD, the hands of nurses to be given with finally voted them fifteen hundred dollars or less discretion of their own, is for their immediate wants. more or less discretion of their own, is Dr. Howard pretty severely consured. Physicians testified at the coroner's inquesty esterday that the estimated amount of contum was a teaspoonful of the mixture, from 35 to 45 drops, which was considered a large dose, and only to be given under pseuliar circumstances and not repeated oftener than from two to three hours. Reports were circulated late tonight that more of the patients died today, but as the asylum is about five miles from the city, with no telegraphic communication, the facts will probably not be ascertained to-night.

Corbin's Saloon at Westerville Ohio, Demolished with Gun-powder.

COLUMBUS, O., August 14.—Corbin's saloon, at Westerville, was blown up again this morning about 2 o'clock. A grating was knocked out and powder was placed under the floor. The walls of the par-room were thrown down by the exbar-room were thrown down by the explosion, and the roof thrown over, so that one end rests on the ruins and the other end on the ground. About one-half of the main building is completely destroyed, and the other half so much damaged as not to be habitable. Corbin was offering liquor for sale to-day in a small room in the rear. He lost no stock by the explosion. He keeps most of his liquor at his residence, taking a small quantity to the saloon daily.

Two or three temperance meetings are held in the village every week, and the sentiments of the speakers, who are generally preachers, have been very emphatic against the saloon. They denounce Corbin as an outlaw, and decline to take part in ferreting out those who insferted the damage upon him.

hanced rates.

The Time' city article to-day says: The following, on the condition of the corast rade, is derived from good sources; admitting as certain; a further rise in the event of bad weather. In a contrary event, there is still time to secure a large proportion of the wheat crop in good condition. If so, the recent apprehensions will probably prove to have been extreme.

If the American crop is secured in good order, there can be a great change in the result of the spring wheat crop from what we had reason to expect a few weeks ago. There had been then already reason to been sufficiently heeded, which should certainly be heeded now. The last reportion France is much less unfavorable than was apprehended. Most of the recent rains have done little injury. Beecher Preaches to 5,000 People

Heecher Preaches to 5,000 People
Twin Mountain House, August 15.—
Five thousand people assembled to-day to
hear the discourse of Rev. Henry Ward
Beecher. It is expected that there will be
an improvement in the accommodation of
the audience that gathers here in future,
for Mr. Beecher intimated by some remarks which he prefaced his sermon that
a tent capable of accommodating 25,000
people would be procured from Boston
between this and next Sunday. Speaking of the Sabbath services here, he said
he received a letter last summer from a
neighboring clergyman complaining that ing of the Sanoau services here, he sanoau her received a letter last summer from a neighboring clergyman complaining that he (Mr. Beecher) by his preaching here on Sunday made Sabbath breaking palatable and conscientious, and that in all the villages round about there was a large class of restless people who would not go to church at home, but who availed themselves of this service and of this day to make a pleasure excursion to the mountains. In a few earnest and forcible words Mr. Beecher defended himself and those who attended worship against the imputations contained in that complaint. The text of the sermon was the 17th verse of the 14th chapter of Romans: "The Kingdom of God is not meat and drink, but rightsousness and peace and joy in the Holy Ghost."
